Product Name	Strength	Vial	Cost
Testosterone Cypionate	200mg/mL	10mL	\$100
Testosterone Cypionate	50mg/mL	30mL	\$145
Testosterone Cypionate	50mg/mL	90mL	On request
Testosterone Cypionate	200mg/mL	120mL	On request
Testosterone Cypionate - CUSTOM			On request

Injectable Vial Dispensing Policy

- All vials are good for **up to 4 days refrigerated** after thawing.

Dispensing Details:

- Orders are dispensed in **30 mL vials by default**, unless otherwise requested.
- If you prefer, we can **hold your vials** and dispense them as needed. For example, if you order 90 mL, we can ship one 30 mL vial initially and send the remaining two vials later—provided they are requested **within 30 days of the first vial being dispensed**.
- We also offer the option to **split your total order into smaller vials** for a small additional fee (to cover the cost of extra vials). Simply indicate how many vials you'd like your total quantity dispensed into.

Storage & Usage Instructions:

- Vials are delivered **frozen**. Upon delivery, please **store them in the freezer immediately**.
- When ready to use, **thaw the vial in the refrigerator**.
- Once thawed and refrigerated, **each vial remains good for up to 4 days**.
- After opening, continue to store the vial in the refrigerator.

Additional Notes:

- Pricing is based on the volume dispensed in **30 mL vials** (e.g., 10 mL / 30 mL / 60 mL / 90 mL / 120 mL).
- You may choose to have your total quantity dispensed across **multiple smaller vials** for convenience.
- If you do not have a freezer, we recommend **on-demand dispensing** to maximize the 4-day refrigerated shelf life.

Let us know your preferred dispensing method—we're happy to accommodate!
